Authors' Generative AI and AI-assisted Technologies Statement

The authors declare that they have not used generative AI (a type of artificial intelligence technology that can produce various types of content including text, imagery, audio and synthetic data. Examples include ChatGPT, NovelAI, Jasper AI, Rytr AI, DALL-E, etc) and AI-assisted technologies in the writing process before submission.

The authors declare that they have used generative AI and/or AI-assisted technologies in the writing process before submission, but only to improve the language and readability of their paper and with the appropriate disclosure:

The authors agree that if they have used generative AI and/or AI-assisted technologies in the writing process before submission, not only to improve the language and readability of their paper that the publisher will not publish the paper or the paper will be removed if it was published.
